Eulogist

Virtual Funeral
Services

Create a meaningful, virtual ceremony to honour your loved one and celebrate their life.

As a result of the COVID-19 pandemic, funerals and tangihanga are permitted at Alert Level 3, but limited to 10 people only. I understand how difficult this is for families and am here to help you create a meaningful and inclusive ceremony using online conferencing apps. A virtual gathering enables physically separated family and friends to join together to say goodbye. This style of ceremony may replace or complement the chapel ceremony, allowing family and friends to participate and contribute from their own bubbles.

How does a virtual ceremony work?

- You decide with your Funeral Director if you wish to hold a private cremation, or a small chapel or grave-side ceremony.
- I conduct a call or Zoom meeting with you to talk about your loved one and every facet of their life.
- We agree on a date and time for the ceremony.
- I work with you to design the perfect ceremony that honours your loved one's personality and culture.
- I capture memories, moments, and experiences and weave them into a unique and eloquent celebration.
- I coordinate the technology, set up the online ceremony, and provide an invitation for you to share with family and friends.
- Everyone joins together for the online ceremony.
- I lead the ceremony, we share the eulogy, and friends and family are invited to participate.
- The ceremony can also be recorded to share with those unable to join the live online ceremony.
- At a later date, we can join together for a memorial service and if appropriate, conduct an interment of ashes.

If you would like more information, or to talk with me about planning a virtual funeral ceremony, call me on 021 977 688 or email andrea@partingwords.co.nz
